

# Angelic Awareness Programs

Presented by Zeljka Roksandic and Dr. Robert V. Gerard

Angels have been around mankind since humanity's beginning, though their function and purpose are not quite understood. In our workshops, participants will discover their relationship with the Angelic Realms.

The intent of these workshops is to open the door and assist each participant to become more aware of their connection and integration with their Higher Selves, Angels, Archangels, and Ascended Masters.
