Several years ago, Suzanne Conti and Robert Gerard received a very special transmission from the voice of the *Divine Feminine Consciousness*. SHE spoke about the global role woman will play to bring *Peace* and *Light* into the new millennium. Importance was placed concerning mankind's acceptance of the *Mother Creator* complement to the *Father Creator*. Thus heralding in *Divine Duality* on this planet. The transmission consisted of the *Communication*, the *Vision*, and the *Commitment*.

The Communication

"... Something extraordinary and wonderful is taking place upon your planet ... Something sacred and wondrous ... Many of you have heard and some understand, that this is the time for the return of *The Divine Feminine* energy to your earthly realms.

Long has this been absent; silent from your realms ... Each of you has heard the call from within, felt the longings, and have had the urge to assist.

How many times did you honor The Goddess, The Mother, The Divine Feminine? How much inner work has been done, to return to this source of Love, Compassion, Forgiveness and Understanding?

Each of you in your own way have been preparing ... Awaiting the time ... To join together and participate in the Greatest Experience ever birthed in your plane of existence. That time is *now* upon you!

For those who read these words, "We Proclaim," that the call to come forth and join this gathering is now taking place in

all regions of your planet ... quietly, devoutly, with reverence and passion ... "

The Visions

Beautiful visions were gifted to Suzanne Conti and Dr. Robert Gerard to be revealed for the women of the world to see. Each vision is replicated and illustrated in eight color plates. Finally, through these visions, the wondrous unfoldment of anchoring the *Divine Feminine Energy* can be captured and your imagery illuminated.

The Commitment

" ... for those of you who wish to respond to this message, make your commitment to accept being chosen for this sacred service and begin to work with the "Divine Feminine" Energy. Ask for the Goddess you are aligned with to communicate with you so that you may formally join her Circle of Light. Meditate on linking with your Circle of Light daily."
